Electronics Assembly

Materials Solutions Across the Board

Henkel Electronics

We are the global innovation leader in electronic and semiconductor assembly materials.

We enable our customers to develop next generation technologies.

**Across the Board,
Around the Globe.**

Excellence is our Passion

What We Offer

INNOVATION

- The most comprehensive, innovative and sustainable portfolio of electronic materials in the industry
- Innovation leadership with more patents and proven technologies as compared to competition

CUSTOMER PARTNERSHIPS

- Full suite of laboratory equipment to allow for creation of tailor-made, leading-edge products
- Strong position with premier industry customers and electronic brands

PROXIMITY TO OUR CUSTOMERS

- Global footprint and infrastructure with local support for our customers
- Development and testing capabilities worldwide, all supported by expert staff of materials scientists and engineers

SUSTAINABILITY

- Development of sustainable products ahead of regulation and legislation
- Prioritization of sustainability and safety throughout the organization

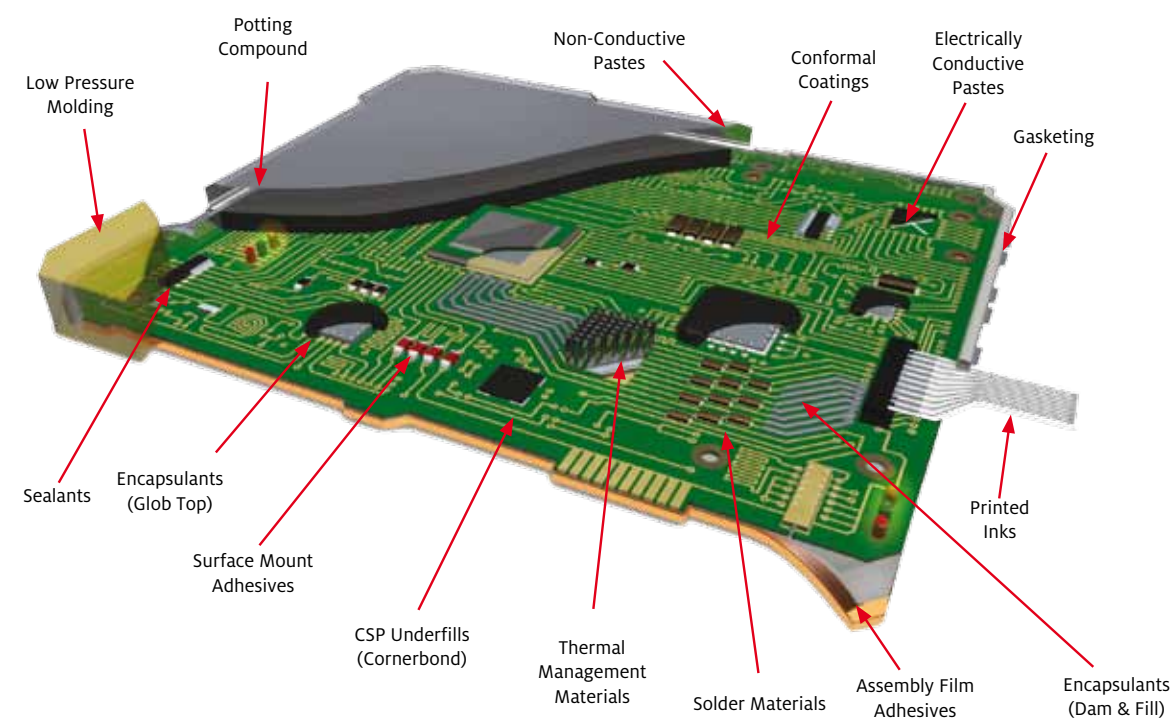

SUPPLY CHAIN RELIABILITY

- Global supply chain reliability through international scope and scale
- Leading position which ensures reliable access to raw materials

Electronics Assembly Product Lines

Henkel is the world's leading and most progressive provider of qualified materials for printed circuit board (PCB) assembly and advanced soldering solutions. Henkel's unique material solutions philosophy is designed with compatibility in mind and positioned to deliver world-class materials. Through testing and validation in our research and development facilities, our products give you the performance, reliability and total solutions across the board to assist tomorrow's electronic industry.

 <ul style="list-style-type: none"> • Electrically Conductive Adhesives • Non-Conductive Adhesives • Surface Mount Adhesives 	 <ul style="list-style-type: none"> • CSP Underfills • Encapsulants • Light Cure Adhesives • Low Pressure Molding (Macromelt) • Circuit Board Protection Materials 	 <ul style="list-style-type: none"> • Conductive Inks • Non-Conductive Inks • Blendable Resistors • Shielding Coatings 	 <ul style="list-style-type: none"> • Solder Paste • Liquid Flux • Solder Wire • Solder Bar 	 <ul style="list-style-type: none"> • Assembly Films • Thermal (Interface) Materials • Thermally Conductive Adhesives

Electronics Assembly Markets

With quality and reliability as the foundation of every formulation, Henkel materials are an integral part of manufacturing operations around the globe, serving customers in various electronics assembly markets:

- Handheld
- Appliance
- Digital Printing
- Computing
- Aerospace
- Automotive
- Medical
- Opto-electronic
- Lighting
- Displays
- Solar
- Wireless Datacom Infrastructure

Our worldwide service, manufacturing, sales and product development network delivers the global footprint that enables your company to be competitive – regardless of your requirements or location.
